EDUCATION

ABES Engineering College

Bachelor in Computer Science

- Current CGPA: 8.11

Ghaziabad, UP

Nov 2022 – July 2026

Om Sai Janata Janardan Intermediate College

Intermediate (PCM)

- Percentage: 81%

Mirzapur, UP

April 2020 – March 2021

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, Node.js, Java, C, Python

Developer Tools: Git, GitHub, Visual Studio Code, IntelliJ IDEA, Jupyter Notebook, Vite, Postman

Libraries: React, Redux, Redux Toolkit

Frameworks: Tailwind CSS, Bootstrap, Express.js

Database: MongoDB, SQL

Core Skills: Data Structures & Algorithms, Operating Systems, Object-Oriented Programming (OOP), Computer Architecture

PROJECTS

School Management System | *React, Redux, Tailwind CSS, Node.js, Express.js, MongoDB* Oct 2024 - Jan 2025

- Developed a role-based school management system to simplify attendance, grading, assignments, exams and results, improving efficiency and promoting smooth collaboration among admins, teachers, students, and parents.

StudyNotion: An EdTech Platform | *React, Redux, Tailwind, Node.js, Express.js, MongoDB* Nov 2023 - Jan 2024

- Developed a full-stack e-learning platform where students and instructors can register, purchase courses, and manage course content with secure payment and registration features.

StreamPulse: A Movie and TV Show Platform | *React, Redux, Tailwind CSS, TMDB API* Sep 2023 - Oct 2023

- Developed a responsive front-end with React and Redux, integrating the TMDB API to provide real-time data on movies and TV shows for seamless content discovery.

ACHIEVEMENTS

– **LeetCode Rating: 1513** 2024

Achieved a rating of 1513 on LeetCode, placing within the top 39.61% of active participants, demonstrating proficiency in algorithms and problem-solving.

– **CodeChef Rating: 906** 2024

Attained a rating of 906 on CodeChef, reflecting knowledge in data structures and algorithms.

CERTIFICATIONS

– **Java Programming Certificate** *University of Helsinki, September 2023*: Completed a comprehensive course in Java programming, covering object-oriented principles, data structures, and algorithms.

– **Problem Solving (Basic) Certificate** *HackerRank, May 2023*: Achieved the Problem Solving (Basic) certificate on HackerRank after solving over 100 algorithmic challenges.

– **React (Basic) Certificate** *HackerRank, May 2024*: Certified in React, covering component-based development, state management, and core React principles.
